

Oil & Gas Solutions

SLK-GOW In-line Multiphase Production Analyzers

- Net Oil and Water Liquid Ratio (WLR) Instantaneous Measurement.
- Oil Viscosity Instantaneous Measurement - API Assignment.
- Oil Composition determination.
- Water Salinity Measurement.
- Instantaneous Gas Volume Fraction measurement.

Benefits of the Spinlock Analysis

- Anti-explosive and waterlight design.
- Flexible and friendly operation.
- SCADA external communication.
- Oil and water range from 0 to 100%.
- Flexible software.
- Fluid physical and chemical analysis.

SLK-GOW testing in a multiphase Flow Loop
