

## Technical Specifications

- Spinlock's **Condor Research Software (TM)**. Includes data acquisition, filtering and analysis.
- Includes **high pressure** and **high temperature** sample holders.
- **Sample holders** (diameter) 3/16 to 4 inches.
- Maximum **Sample Temperature: 300 oF**.
- Maximum **Sample Pressure: 2000 psi**.
- **9 to 13 MHz** resonance frequency.
- Includes **additional accessories for diffusion experiments (1D gradient)**.

## Spinlock MRI Advantages

- **Clean** and Environmental Friendly.
- **Remotely Controlled**.
- **Configurable** during the manufacturing process.
- **Modular** design.
- Low **maintenance**.
- **Immediate results** (←2 minutes).
